International Student Programme Exit Survey

Note on the use of this survey:

This survey may be adapted to meet your specific processes and needs. How you administer it will depend on the age of the student. For older students, it may be administered on paper, e.g. during an ESOL class, or via eSchool or an online platform such as Survey Monkey. For very young children, a teacher may ask them the questions and record or help them record their answers. You may choose whether to make it an anonymous survey or not. If you decide on an anonymous survey, you may wish to remove the home country and name of host family identifiers, but the information is more useful if you know which host family it is about.

Your Home Country **How long did you study here?**
