

ROAD PATROLLERS NEED PARENT SUPPORT

Tena Koutou, ko Whaea Missy ahau. My young crossing guards and I need your support. Students love to enlist as a patroller and are so eager to be a part of the team. This tends to decrease and becomes increasingly hard to keep them as they come up against the daily trials this duty places on them. Drivers unwilling to park correctly and pedestrian impatience imposes negativity that affect our tamariki. Though I try to be every where at once, there are times when I am unable to shield the young ones from driver and pedestrian non compliance. I do acknowledge and thank those adults who give our patrollers words of encouragement and praise.

I am asking for parents to become part of a roster for at least 2 days a week till the end of this term. You will be paired with a patroller to support them while on duty for between 10 and 15 minutes. I am hoping for at least 2 parents per day, but if you can only manage 1 day a week, we would be so grateful.

Road Patrol skills develop life long road safety habits, leadership, team work, school support, and encourages confidence and a positive self image.

Please sign up with Whaea Missy in room 6 or phone the school to leave your name and days you are available.
